Artisan Partners Asset Management Inc. Reports 1Q16 Results

Milwaukee, WI - April 25, 2016 - Artisan Partners Asset Management Inc. (NYSE: APAM) (the “Company” or “Artisan Partners”) today reported its results for the three months ended March 31, 2016, including net income and earnings per share. The full March quarter 2016 earnings release and investor presentation can be viewed at www.apam.com.

Eric Colson, Chairman and CEO, said, “Artisan Partners is a high value added investment management firm. Over full market cycles, we believe that our strategies will meet client and investor goals and deliver outcomes that are superior to indexes and peers. A portfolio of \$1 million invested in each of our 15 strategies on the strategy’s inception date would have been worth about \$57.5 million at March 31, 2016, after fees. Had the same dollars been invested on the same dates in the corresponding passive indexes, the portfolio would have been worth about \$38.5 million - \$19 million, or 33%, less than the hypothetical Artisan Partners portfolio. This is just one way of illustrating the high value added outcomes Artisan Partners has generated for clients and investors over time.

“Over our twenty year history as a firm, we have managed and evolved our business in different environments and a constantly changing marketplace. Our experience has taught us to remain patient, disciplined and focused on earning the trust of people: our clients, investors and talent. With that approach, we have developed seven autonomous investment teams and 15 high value added investment strategies. Each team and strategy has diversified and added value to our business and serves as a separate proof point for our long-term approach.

“While the role of traditional active management will continue to evolve, we are confident that sophisticated investors will continue to allocate assets to active managers with track records of delivering alpha with integrity. There will always be demand for managers who deliver more dollars and do so with a disciplined and repeatable process. That is what Artisan Partners is designed to do across all of our strategies, from our longest-tenured products to our newer global strategies to our latest generation High Income and Developing World strategies.”

Business Update

Commenting on the first quarter of 2016, Mr. Colson said, “Our global strategies continue to perform well and generate interest and net client cash flows from clients and investors in the United States and around the world. Each of our Global Value, Global Opportunities, and Global Equity strategies has generated more than 425 basis points of alpha since inception. The Global Value and Global Opportunities U.S. mutual funds have 5-star overall Morningstar ratings, and the Global Equity fund has a 4-star overall rating. In the fourth quarter of 2015 we re-opened the Global Value strategy to investors in our pooled vehicles, resulting in net inflows for the strategy during the first quarter after several quarters of net outflows while the strategy was closed to most new investors. The Global Opportunities strategy had \$151 million of net inflows during the first quarter and has, we believe, the opportunity to raise significant new assets during the remainder of the year. While flows have been modest in the Global Equity strategy, we continue to believe that the strategy will grow as the global equities asset class increasingly becomes a part of sophisticated investors’ long-term asset allocations. Our global strategies’ track records, and the talent behind those track records, position us very well in this high value added space.

“Our two newest strategies, High Income and Developing World, continue to perform well and grow their assets. In the first quarter, the High Income strategy raised \$334 million in net client cash flows and the Developing World strategy raised \$170 million. With both strategies, we are committed to preserving the investment teams’ time so that they can remain focused on their investment processes and portfolios.

“Our firm-wide net outflows of \$1.3 billion during the quarter were primarily driven by net outflows from the strategies managed by our U.S. Value team, which experienced a total of \$1.2 billion of net outflows during the quarter. As we have discussed before, the relative performance of the team suffered over the last several years as momentum stocks appreciated relative to the less expensive stocks the team’s philosophy favors. Consistent with our high value added philosophy, the team took a different view than the market and, in this case, was punished for doing so. We know that can happen. While the team’s relative performance has improved in 2016, the long-term underperformance is resulting in net outflows, which we expect will continue. As we announced in late February, the U.S. Value team will cease managing assets in the U.S. Small-Cap Value strategy and Artisan Small Cap Value Fund is scheduled to merge with Artisan Mid Cap Value Fund in late May 2016.”

Conference Call

The Company will host a conference call on April 26th, at 11:00 a.m. (Eastern Time) to discuss these results. Hosting the call will be Eric Colson, Chairman and Chief Executive Officer, and C.J. Daley, Chief Financial Officer. The call will be webcast and can be accessed via the investor relations section of artisanpartners.com. Listeners may also access the call by dialing 877.328.5507 or 412.317.5423 for international callers; the conference ID is 10083939. A replay of the call will be available until May 3, 2016 at 9:00 a.m. (Eastern Time), by dialing 877.344.7529 or 412.317.0088 for international callers; the replay conference ID is 10083939. In addition, the webcast will be available on the Company's website.

Forward-Looking Statements and Other Disclosures

Certain statements in this release, and other written or oral statements made by or on behalf of the Company, are “forward-looking statements” within the meaning of the federal securities laws. Statements regarding future events and our future performance, as well as management’s current expectations, beliefs, plans, estimates or projections relating to the future, are forward-looking statements within the meaning of these laws. These forward-looking statements are only predictions based on current expectations and projections about future events. These forward-looking statements are subject to a number of risks and uncertainties, and there are important factors that could cause actual results, level of activity, performance, actions or achievements to differ materially from the results, level of activity, performance, actions or achievements expressed or implied by the forward-looking statements. These factors include : the loss of key investment professionals or senior management, adverse market or economic conditions, poor performance of our investment strategies, change in the legislative and regulatory environment in which we operate, operational or technical errors or other damage to our reputation and other factors disclosed in the Company’s filings with the Securities and Exchange Commission, including those factors listed under the caption entitled “Risk Factors” in Item 1A of the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2015, filed with the SEC on February 25, 2016. The Company undertakes no obligation to update any forward-looking statements in order to reflect events or circumstances that may arise after the date of this release.

Growth of \$1 million calculation is based on monthly returns of each Artisan composite and its broad-based market index for the period since the composite’s inception through March 31, 2016. An investment cannot be made directly in an Artisan composite or a market index and the aggregated results are hypothetical. Composite returns are net of fees, calculated using the highest model investment advisory fees applicable to portfolios within the composite, and the performance and fees of individual portfolios within a composite will vary. Index returns do not reflect the payment of fees and expenses. The returns for any composite may be positive or negative, and past performance does not guarantee future results. Indexes used are: Non-U.S. Growth Strategy / Non-U.S. Value Strategy-MSCI EAFE Index; Global Equity Strategy / Global Opportunities Strategy / Global Value Strategy-MSCI ACWI Index; Global Small-Cap Growth Strategy-MSCI ACWI Small Cap Index; Non-U.S. Small-Cap Growth Strategy-MSCI EAFE Small Cap Index; U.S. Mid-Cap Growth Strategy / U.S. Mid-Cap Value Strategy-Russell Midcap® Index; U.S. Small-Cap Growth Strategy / U.S. Small-Cap Value Strategy-Russell 2000® Index; Value Equity Strategy-Russell 1000® Index; Developing World Strategy / Emerging Markets Strategy-MSCI Emerging Markets Index; High Income Strategy-BofA Merrill Lynch High Yield Master II Index.

The Morningstar ratings refer to the ratings by Morningstar of the share class of the respective series of Artisan Partners Funds Inc. with the earliest inception date and are based on a 5-star scale. Morningstar data © 2016 Morningstar, Inc.; all rights reserved. Morningstar data contained herein (1) is proprietary to Morningstar and/or its content providers, (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating™ which is based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund’s monthly performance, including the effects of sales charges, loads, and redemption fees, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. Ratings are based on risk-adjusted returns and are historical and do not represent future results. The Overall Morningstar Rating™ for a fund is derived from a weighted average of the performance figures associated with its three-year, five-year, and ten-year (if applicable) Morningstar Ratings metrics. Artisan Global Value Fund, Artisan Global Opportunities Fund and Artisan Global Equity Fund are rated by Morningstar within the World Stock category. Morningstar ratings are initially given on a fund’s three year track record and change monthly.

¹ Adjusted measures are non-GAAP measures and are explained and reconciled to the comparable GAAP measures in Exhibit 2.

² EBITDA represents earnings before interest, tax, depreciation and amortization expense.

Assets Under Management Decreased to \$97.0 billion

During the March quarter, our AUM decreased to \$97.0 billion at March 31, 2016, a decrease of \$2.8 billion, or 2.8%, compared to \$99.8 billion at December 31, 2015, as a result of \$1.5 billion of market depreciation and \$1.3 billion in net client cash outflows. Compared to March 31, 2015, AUM decreased \$11.7 billion, or 10.8%, due to \$6.7 billion of market depreciation and \$5.0 billion in net client cash outflows.

Average AUM for the March quarter of 2016 was \$92.9 billion, a decrease of 8.4% compared to average AUM for the December quarter of 2015 of \$101.4 billion and a 14.3% decrease from the average of \$108.4 billion for the March quarter of 2015.

March Quarter of 2016 Compared to December Quarter of 2015

GAAP net income was \$16.3 million, or \$0.35 per basic and diluted share, in the March quarter of 2016 compared to net income of \$20.1 million, or \$0.47 per basic and diluted share, in the December quarter of 2015. Adjusted net income was \$37.6 million, or \$0.51 per adjusted share, in the March quarter of 2016 compared to adjusted net income of \$46.2 million, or \$0.63 per adjusted share, in the December quarter of 2015.

- Revenues of \$174.5 million in the March quarter of 2016 decreased \$17.5 million from \$192.0 million in the December quarter of 2015 primarily due to lower average AUM in the March quarter.
- Operating expenses of \$119.7 million in the March quarter of 2016 decreased \$6.6 million from \$126.3 million in the December quarter of 2015 primarily as a result of lower incentive compensation and third-party distribution expenses in the March quarter, both of which fluctuate with revenue and AUM, and a decrease in pre-offering related equity compensation expense. The decreases were partially offset by a \$3.5 million increase in seasonal benefits expense and a \$1.2 million increase in post-IPO equity compensation expense related to our January 2016 annual equity grant. Seasonal expenses include employer funded retirement and health care contributions, payroll taxes, and non-employee director compensation.
- GAAP operating margin was 31.4% for the March quarter of 2016 compared to 34.2% for the December quarter of 2015.
- Adjusted operating margin was 35.8% for the March quarter of 2016 compared to 39.7% for the December quarter of 2015. The seasonal expenses negatively impacted GAAP and adjusted operating margins by 200 basis points.

March Quarter of 2016 Compared to March Quarter of 2015

GAAP net income was \$16.3 million, or \$0.35 per basic and diluted share, in the March quarter of 2016 compared to net income of \$19.5 million, or \$0.43 per basic and diluted share, in the March quarter of 2015. Adjusted net income was \$37.6 million, or \$0.51 per adjusted share, in the March quarter of 2016 compared to adjusted net income of \$47.5 million, or \$0.65 per adjusted share, in the March quarter of 2015.

- Revenues of \$174.5 million in the March quarter of 2016 decreased \$29.1 million from \$203.6 million in the March quarter of 2015 primarily due to lower average AUM.
- Operating expenses of \$119.7 million in the March quarter of 2016 decreased \$16.1 million from \$135.8 million in the March quarter of 2015 primarily as a result of lower incentive compensation and third-party distribution expenses in the March quarter of 2016, both of which fluctuate with revenue and AUM, a decrease in pre-offering related equity compensation expense, and \$6.5 million of initial start-up costs associated with the formation of our Developing World team incurred in the March quarter of 2015. The decreases were partially offset by increased technology expenses and increased post-IPO equity compensation expense.
- GAAP operating margin was 31.4% for the March quarter of 2016 compared to 33.3% for the March quarter of 2015.
- Adjusted operating margin was 35.8% for the March quarter of 2016 compared to 38.4% for the March quarter of 2015.

Capital Management

Cash and cash equivalents were \$217.9 million at March 31, 2016 compared to \$166.2 million at December 31, 2015. Forward-Looking Statements and Other Disclosures

Certain statements in this release, and other written or oral statements made by or on behalf of the Company, are "forward-looking statements" within the meaning of the federal securities laws. Statements regarding future events and our future performance, as well as management's current expectations, beliefs, plans, estimates or projections relating to the future, are forward-looking statements within the meaning of these laws. These forward-looking statements are only predictions based on current expectations and projections about future events. These forward-looking statements are subject to a number of risks and uncertainties, and there are important factors that could cause actual results, level of activity, performance, actions or achievements to differ materially from the results, level of activity, performance, actions or achievements expressed or implied by the forward-looking statements. These factors include : the loss of key investment professionals or senior management, adverse market or economic conditions, poor performance of our investment strategies, change in the legislative and regulatory environment in which we operate, operational or technical errors or other damage to our reputation and other factors disclosed in the Company's filings with the Securities and Exchange Commission, including those factors listed under the caption entitled "Risk Factors" in Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015, filed with the SEC on February 25, 2016. The Company undertakes no obligation to update any forward-looking statements in order to reflect events or circumstances that may arise after the date of this release.

Growth of \$1 million calculation is based on monthly returns of each Artisan composite and its broad-based market index for the period since the composite's inception through March 31, 2016. An investment cannot be made directly in an Artisan composite or a market index and the aggregated results are hypothetical. Composite returns are net of fees, calculated using the highest model investment advisory fees applicable to portfolios within the composite, and the performance and fees of individual portfolios within a composite will vary. Index returns do not reflect the payment of fees and expenses. The returns for any composite may be positive or negative, and past performance does not guarantee future results. Indexes used are: Non-U.S. Growth Strategy / Non-U.S. Value Strategy- MSCI EAFE Index; Global Equity Strategy / Global Opportunities Strategy / Global Value Strategy- MSCI ACWI Index; Global Small-Cap Growth Strategy- MSCI ACWI Small Cap Index; Non-U.S. Small-Cap Growth Strategy- MSCI EAFE Small Cap Index; U.S. Mid-Cap Growth Strategy / U.S. Mid-Cap Value Strategy- Russell Midcap® Index; U.S. Small-Cap Growth Strategy / U.S. Small-Cap Value Strategy- Russell 2000® Index; Value Equity Strategy- Russell 1000® Index; Developing World Strategy / Emerging Markets Strategy- MSCI Emerging Markets Index; High Income Strategy- BofA Merrill Lynch High Yield Master II Index.

The Morningstar ratings refer to the ratings by Morningstar of the share class of the respective series of Artisan Partners Funds Inc. with the earliest inception date and are based on a 5-star scale. The Company's management uses non-GAAP measures (referred to as "adjusted" measures) of net income and operating income to evaluate the profitability and efficiency of the underlying operations of the business and as a factor when considering net income available for distributions and dividends. These adjusted measures remove the impact of (1) pre-offering related compensation and (2) net gain (loss) on the tax receivable agreements. These adjustments also remove the non-operational complexities of the Company's structure by adding back non-controlling interests and assuming all income of Artisan Partners Holdings is allocated to the Company. Management believes these non-GAAP measures provide more meaningful information to analyze the Company's profitability and efficiency between periods and over time. The Company has included these non-GAAP measures to provide investors with the same financial metrics used by management to manage the Company.

Non-GAAP measures should be considered in addition to, and not as a substitute for, financial measures prepared in accordance with GAAP. The Company's non-GAAP measures may differ from similar measures used by other companies, even if similar terms are used to identify such measures. The Company's non-GAAP measures are as follows:

- *Adjusted net income* represents net income excluding the impact of (1) pre-offering related compensation and (2) net gain (loss) on the tax receivable agreements. Adjusted net income also reflects income taxes assuming the vesting of all unvested Class A share-based awards and as if all outstanding limited partnership units of Artisan Partners Holdings had been exchanged for Class A common stock of the Company on a one-for-one basis. Assuming full vesting, exchange and conversion, all income of Artisan Partners Holdings is treated as if it were allocated to the Company, and the adjusted provision for income taxes represents an estimate of income tax expense at an effective rate reflecting assumed federal, state, and local income taxes. The estimated adjusted effective tax rate was 37.0% for the periods presented.
- *Adjusted net income per adjusted share* is calculated by dividing adjusted net income by adjusted shares. The number of adjusted shares is derived by assuming the vesting of all unvested Class A share-based awards and the exchange of all outstanding limited partnership units of Artisan Partners Holdings for Class A common stock of the Company on a one-for-one basis.
- *Adjusted operating income* represents the operating income of the consolidated company excluding pre-offering related compensation.
- *Adjusted operating margin* is calculated by dividing adjusted operating income by total revenues.
- *Adjusted EBITDA* represents income before income taxes, interest expense and depreciation and amortization, adjusted to exclude the impact of net income attributable to non-controlling interests, pre-offering related compensation and net gain (loss) on the tax receivable agreements

Pre-offering related compensation includes the amortization of unvested Class B common units of Artisan Partners Holdings that were granted before and were unvested at the Company's IPO, which closed on March 12, 2013.

Net gain (loss) on tax receivable agreements represents the income or expense associated with the change in valuation of amounts payable under the tax receivable agreements entered into in connection with the Company's initial public offering and related reorganization.

¹ We measure the results of our “composites”, which represent the aggregate performance of all discretionary client accounts, including mutual funds, invested in the same strategy except those accounts with respect to which we believe client-imposed restrictions may have a material impact on portfolio construction and those accounts managed in a currency other than U.S. dollars (the results of these accounts, which represented approximately 9% of our assets under management at March 31, 2016, are maintained in separate composites, which are not presented in these materials).

² Value-added is the amount in basis points by which the average annual gross composite return of each of our strategies has outperformed the broad-based market index most commonly used by our clients to compare the performance of the relevant strategy. Value-added for periods less than one year is not annualized. The Artisan High Income Strategy may hold loans and other security types that may not be included in the *BofA Merrill Lynch High Yield Master II Index*. At times, this causes material differences in relative performance.

Data as of and through March 31, 2016. Value added measures the average annual outperformance or underperformance of the gross composite return of each Artisan Partners strategy compared to its broad-based benchmark. Periods of one year or less are not annualized. See Notes & Disclosures at the end of this presentation for more information about our investment performance. ¹ Morningstar ratings are for the series of Artisan Partners Funds managed in the indicated Artisan Partners strategy.

Rolling 3-Year Value-Add Over Last 10 Years

Basis Points of Outperformance and Underperformance Versus Index

Data shown is from April 1, 2006 - March 31, 2016. Represents, at each time shown, the trailing 3-year average annual returns of the gross composite of each Artisan Partners strategy compared to the trailing 3-year average annual returns of the Artisan strategy's broad-based benchmark. See Notes & Disclosures at the end of this presentation for more information about our investment performance.

Total # of Rolling Monthly Periods	1,925	1,602	1,314	666	258

Data as of and through March 31, 2016. Total # of Rolling Monthly Periods represents the total number of rolling monthly periods for each applicable period (1-Year, 3-Year, etc.) within the since-inception timespans of Artisan Partners' 14 investment strategies with at least a one-year track record that Artisan Partners has marketed to clients. For example, Artisan's eight investment strategies with 10-year track records have experienced a total of 666 rolling 10-year (120-month) periods. Outperformed Index Periods represents the total number of rolling monthly periods for which the average annual gross returns of the Artisan composite were greater than the average annual returns of the Artisan strategy's broad-based benchmark. For example, in 591 of the 666 rolling 10-year periods experienced by Artisan's composites, the Artisan composite's average annual gross returns were greater than the average annual returns of the Artisan strategy's broad-based benchmark. Magnitude of Outperformance shows the number of rolling periods during which the average annual gross returns of the Artisan composite outperformed the average annual returns of the applicable broad-based benchmark by 0-100, greater than 100-500, and greater than 500 basis points, as a percentage of the Outperformed Index Periods. The data shown on this slide is not representative of any Artisan strategy's total return or any individual client's or investor's experience. See Notes & Disclosures at the end of this presentation for more information about our investment performance and each Artisan strategy's broad-based benchmark.

Total Compensation and Benefits	\$ 95.3	54.6%	\$ 99.4	51.8%	\$ 108.8	53.4%

- Incentive Compensation is primarily variable compensation paid to investment and distribution teams based on revenue-share percentages and discretionary cash incentives paid to other employees. Incentive Compensation decreased in the March 2016 quarter as compared to the December 2015 quarter primarily due to lower revenues. On a year over year basis, Incentive Compensation decreased primarily due to lower revenues and the on-boarding of our new Developing World investment team in the March 2015 quarter.
- In the March 2016 and 2015 quarters, Benefits & Payroll Taxes includes seasonal payroll taxes, the first quarter funding of 50% of the Company's annual contribution to employee health savings accounts, and 401(k) matching that is greater in the first quarter of each year.
- Equity Based Compensation Expense increased in the March 2016 quarter as a result of the pro-rata amortization of the equity grant made in January 2016.

Sources: Artisan Partners/Lipper Inc/Morningstar. % of AUM in Outperforming Strategies at December 31 of each year, unless noted otherwise. % of AUM in Outperforming Strategies represents the % of AUM in strategies where gross of fees composite performance had outperformed the benchmark for the average annual periods indicated above and since inception. % of AUM in Outperforming Strategies for each period includes only assets under management in all strategies in operation throughout the period. Lipper rankings and Morningstar Ratings are as of March 31, 2016. Lipper rankings are based on total return, are historical, and do not represent future results. Lipper Ranking does not include Funds with less than a 1-yr track record. Morningstar ratings are based on risk-adjusted return. The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its 3-, 5- and 10-year (if applicable) Morningstar Rating metrics. NOTES & DISCLOSURES

Forward-Looking Statements

Certain statements in this presentation, and other written or oral statements made by or on behalf of the Company, are "forward-looking statements" within the meaning of the federal securities laws. Statements regarding future events and our future performance, as well as management's current expectations, beliefs, plans, estimates or projections relating to the future, are forward-looking statements within the meaning of these laws. These forward-looking statements are only predictions based on current expectations and projections about future events. These forward-looking statements are subject to a number of risks and uncertainties, and there are important factors that could cause actual results, level of activity, performance, actions or achievements to differ materially from the results, level of activity, performance, actions or achievements expressed or implied by the forward-looking statements. These factors include: the loss of key investment professionals or senior management, adverse market or economic conditions, poor performance of our investment strategies, change in the legislative and regulatory environment in which we operate, operational or technical errors or other damage to our reputation and other factors disclosed in the Company's filings with the Securities and Exchange Commission, including those factors listed under the caption entitled "Risk Factors" in Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015, filed with the SEC on February 25, 2016. The Company undertakes no obligation to update any forward-looking statements in order to reflect events or circumstances that may arise after the date of this release.

Investment Performance

We measure the results of our "composites", which represent the aggregate performance of all discretionary client accounts, including mutual funds, invested in the same strategy except those accounts with respect to which we believe client-imposed restrictions may have a material impact on portfolio construction and those accounts managed in a currency other than U.S. dollars (the results of these accounts, which represented approximately 9% of our assets under management at March 31, 2016, are maintained in separate composites, which are not presented in these materials). Composite data for the following strategies is represented by a single account: Artisan Global Small-Cap Growth and Artisan High Income.

Results for any investment strategy described herein, and for different investment products within a strategy, are affected by numerous factors, including different material market or economic conditions; different investment management fee rates, brokerage commissions and other expenses; and the reinvestment of dividends or other earnings. The returns for any strategy may be positive or negative, and past performance does not guarantee future results. Composite returns are presented gross of investment advisory fees applied to client accounts. Fees, if reflected, would reduce the results presented for an investor in an account managed within a Composite.

In these materials, we present Active Share, a statistic which represents how "active" a portfolio manager is by measuring the degree to which a portfolio of securities differs from its benchmark index by constituent overlap and allocation magnitude. Active Share can range from 0% for a portfolio that perfectly mirrors its benchmark to 100% for a portfolio with no overlap with an index.

We present examples of the growth of \$1 million and other forms of outperformance against an index which utilize calculations based on monthly returns comparing an Artisan composite to its broad-based market index for the period since the composite's inception through March 31, 2016. An investment cannot be made directly in an Artisan composite or a market index and the aggregated results are hypothetical. Composite returns used in the growth of \$1 million are net of fees, calculated using the highest model investment advisory fees applicable to portfolios within the composite. The performance and fees of individual portfolios within a composite will vary. Index returns do not reflect the payment of fees and expenses.

In these materials, we present "Value-Added", which is the amount in basis points by which the average annual gross composite return of each of our strategies has outperformed or underperformed the broad-based market index most commonly used by our clients to compare the performance of the relevant strategy. The market indices used to compare performance for each of our strategies are as follows: Non-U.S. Growth Strategy / Non-U.S. Value Strategy—MSCI EAFE Index; Global Equity Strategy / Global Opportunities Strategy / Global Value Strategy—MSCI ACWI Index; Global Small-Cap Growth Strategy—MSCI ACWI Small Cap Index; Non-U.S. Small-Cap Growth Strategy—MSCI EAFE Small Cap Index; U.S. Mid-Cap Growth Strategy / U.S. Mid-Cap Value Strategy—Russell Midcap® Index; U.S. Small-Cap Growth Strategy / U.S. Small-Cap Value Strategy—Russell 2000® Index; Value Equity Strategy—Russell 1000® Index; Developing World Strategy / Emerging Markets Strategy—MSCI Emerging Markets Index; High Income Strategy—BofA Merrill Lynch High Yield Master II Index. Unlike the BofA Merrill Lynch High Yield Master II Index, the Artisan High Income Strategy may hold loans and other security types. At times, this causes material differences in relative performance.

In this document, we present information based on Morningstar, Inc., or Morningstar, ratings for series of Artisan Partners Funds, Inc. ("Artisan Funds"). The Morningstar ratings refer to the ratings by Morningstar of the share class of the respective series of Artisan Funds with the earliest inception date and are based on a 5-star scale. Morningstar data © 2016 Morningstar, Inc.; all rights reserved. Morningstar data contained herein (1) is proprietary to Morningstar and/or its content providers, (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating™ which is based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly performance, including the effects of sales charges, loads, and redemption fees, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star.

NOTES & DISCLOSURES

Ratings are based on risk-adjusted returns and are historical and do not represent future results. The Overall Morningstar Rating™ for a fund is derived from a weighted average of the performance figures associated with its three-year, five-year, and ten-year (if applicable) Morningstar Ratings metrics. The Artisan Funds, the ratings of which form the basis for the information reflected in this presentation, and the categories in which they are rated are: Artisan International Fund—Foreign Large Blend Funds Category; Artisan International Small Cap Fund—Foreign Small/Mid Growth Funds Category; Artisan Global Equity Fund—World Stock; Artisan Small Cap Value Fund—Small Value Funds Category; Artisan Mid Cap Value Fund—Mid-Cap Value Funds Category; Artisan Value Equity Fund—Large Value Funds Category; Artisan Mid Cap Fund—Mid-Cap Growth Funds Category; Artisan Global Opportunities Fund—World Stock; Artisan Small Cap Fund—Small Growth Funds Category; Artisan International Value Fund—Foreign Small/Mid Funds Category; Artisan Global Value Fund—World Stock; Artisan Emerging Markets Fund—Diversified Emerging Markets Funds Category. Morningstar ratings are initially given on a fund's three year track record and change monthly.

Financial Information

Throughout these materials, we present historical information about our assets under management and our average assets under management for certain periods. We use our information management systems to track our assets under management and we believe the information in these materials regarding our assets under management is accurate in all material respects. We also present information regarding the amount of our assets under management sourced through particular distribution channels. The allocation of assets under management sourced through particular distribution channels involves estimates and the exercise of judgment. We have presented the information on our assets under management sourced by distribution channel in the way in which we prepare and use that information in the management of our business. Data sourced by distribution channel on our assets under management are not subject to our internal controls over financial reporting.

Rounding

Any discrepancies included in these materials between totals and the sums of the amounts listed are due to rounding.
